 Chennai

SUMMARY

Artificial Intelligence and Data Science graduate with hands-on experience in Full Stack Web Development using Python, Django, React.js, and MySQL. Skilled in developing scalable web applications, implementing secure authentication, and building REST APIs. Strong foundation in database management and problem solving with a passion for learning new technologies.

TECHNICAL SKILLS

- **Languages:** HTML, CSS, JavaScript, SQL, Python, Machine Learning
- **Libraries/Frameworks:** Django, React.js, Rest-API
- **Tools:** MySQL, VS Code, Google Colab, Git, GitHub, Microsoft Excel
- **Soft skills:** Team work, Strong Communication, Problem Solving, Leadership

EDUCATION

Kings Engineering College ,Chennai B.Tech - Artificial Intelligence and Data Science (7.9 CGPA)	Chennai,Tamil Nadu 2021 - 2025
Sriram Matric Higher Secondary School, Kambainallur HSLC – 74.5%	Kambainallur,Tamil Nadu 2020 - 2021
Oxford Matriculation School, Kambainallur SSLC – 52.8%	Kambainallur,Tamil Nadu 2018 - 2019

PROJECTS

AI POWERED KNOWLEDGE MANAGEMENT SYSTEM

- Developed an AI-Powered Knowledge Management System using NLP and knowledge graphs to transform unstructured data into structured knowledge.
- Implemented spaced repetition, interactive flashcards, and quizzes to improve retention and engagement.
- Built a mistake analyzer and recommendation engine to personalize learning based on user performance and weak areas.

CRIMINAL FACE DETECTION

- Developed a system to identify and track criminals using advanced face recognition Technology, enhancing public safety and law enforcement.
- Addressed the challenge of indexing large image datasets by optimizing Elasticsearch configurations.
- Enhanced search accuracy by fine-tuning feature extraction methods and nearest neighbor search parameters.

INTERNSHIPS

Prodigy Infotech <i>Data Science Internship</i>	Aug 2024-Sept 2024
• Performed data cleaning and preprocessing using Python (Pandas, NumPy) for accurate analysis. • Applied ML techniques (regression, decision trees, clustering) to identify patterns and built predictive models with scikit-learn. • Utilized SQL for large-scale data management and developed Tableau dashboards for stakeholder insights.	

CERTIFICATION

- Machine Learning - Vcodez Innovating ideas
- Data Science - Prodigy Infotech
- Python, C++ - Cybernaut
- Smart India Hackthon - Sathyabama University
